

## **DU Innovation Projects creates SpineVeda, an android based mobile App for Persons with Spine Injury**

A functional mobile App made by University of Delhi was unveiled at Antardhvani on 15 February 2014.

The App is for one and all to guard them against getting a spine injury as it has no cure and leads to lifelong disability.

It is specially for Persons with Spine Injury to guide them to lead a life of fulfillment and dignity, preventing complications.

Two functional modules were displayed after the launch by Ms Stuti Kacker, Secretary, Ministry of Social Justice and Empowerment, Prof Dinesh Singh, Vice Chancellor, the Antardhvani team and the Innovation Project team.

**Makers of the App: Team at SGTB Khalsa College.**
